

Links and useful contacts

There are lots of other websites and organisations that can give you information about different careers, training and university courses. It's a good idea to look into your options some more before making a final decision. These are some of the ones we've found and are a good place to start.

For more information on your options after school:

<http://www.futuremorph.org/>

The **Future Morph** website is designed to show 14 – 18 year olds career routes that studying science, technology, engineering and maths can lead to.

www.brightknowledge.org/bright-knowledge

Bright Knowledge and the Student Calculator are designed to help students and young people manage their money and explore education and career options

<https://www.plotr.co.uk/>

Plotr offers information on different job sectors shown through 'career worlds', a 'resource centre' and an 'opportunity finder' which will identify training opportunities around a given post code.

www.apprenticeships.org.uk/

The **Apprenticeship website** provides one-stop information about Apprenticeships including vacancies.

<http://www.notgoingtouni.co.uk/>

notgoingtouni provides information on the opportunities available after school - for training, employment, sponsored degrees, etc.

www.icould.com

Look into different careers by watching videos by people in different jobs telling you what their working life is like.

www.careercamel.com

A careers site for students, graduates and school leavers. Career Camel offers jobs, internships, advice and courses.

www.prospects.ac.uk

Lots of information and advice on careers, further study, and other things to do after university.

[Success at School](http://www.successatschool.org)

Careers site for students aged 13-18, to explore jobs, connect with employers and pick up work and study advice.

Getting in offers revision materials for both GCSE and A Level and lots of information about choosing and applying for university, including when open days take place, the process of applying and lots of sample personal statements.

www.getting-in.com/

www.bestcourse4me.com

Best Course 4 Me (and their free app) is a good site to help planning a future degree. Users can identify A level subjects and see what degrees people usually go on to do, see what careers people progress on to from different degrees, etc.

www.intouniversity.org

Charity providing support to young people from socially disadvantaged backgrounds to attain either a university place or another chosen aspiration.

[Save The Graduate](#)

A website dedicated to guiding students through both career and life choices beyond education. It has hundreds of useful guides and a powerful careers search engine.

[Inspiring Interns](#)

Inspiring Interns is an intern recruitment agency based in London. Browse their website for internship vacancies, graduate jobs and advice on recording a video CV.

www.nationalcareersservice.direct.gov.uk

Government careers advice website with lots of useful information for 13-19 year olds, and a phone number if you'd like to speak with someone about career choices.

www.socialmobility.org.uk

Social Mobility Foundation provides a range of supports for bright, less privileged A Level students to enable them to realise their potential, by progressing to good universities and into top professions and businesses.

[AllAboutCareers.com](#)

AllAboutCareers is a social careers website aimed at young people aged 16-24 with information about apprenticeships, internships and graduate schemes as well as in-depth coverage of 24 industries.

[Target Jobs](#)

The largest choice of graduate jobs, internships and work experience, and expert advice on how to get hired.

For more information on choosing, applying for, and going to a university:

www.ucas.ac.uk

The organisation responsible for managing applications to higher education courses in the UK, with lots of advice on making your choice and the application process.

[Which? University](#)

What to study, where to go, and how to get there . . .

[The Telegraph UCAS Calculator](#)

The Telegraph UCAS Calculator converts your A and AS Level grades into UCAS points. Find at what sensible or random courses you could study at university with this UCAS Calculator.

www.universitiesnet.com

University guide for students.

[Student Relaunch](#)

Advice and guidance service for early leavers of higher education

www.studentsatuni.co.uk

Guide to surviving university by students for students.

www.interstudent.co.uk

Information and advice on student life.

www.studential.com

Advice on the decisions and application processes from A levels through Uni to life after Uni.

www.push.co.uk

'The ruthlessly independent guide to UK universities'

www.whatuni.com

Guides to and reviews of universities and courses, info about open days etc.

www.offa.org.uk

Office for Fair Access promotes fair access to higher education.

www.brightknowledge.org

Bright Knowledge is a library of resources and news to help students of all ages. Bright Knowledge is created by the national educational charity Brightside: www.thebrightsidetrust.org

For more information on the cost of a university education and student debt:

www.moneysavingexpert.com/banking/student-money-saving

Dedicated to helping you save money and find the best deals, based on detailed journalistic research.

www.student-finance.co.uk

Advice on student finance.

www.118student.co.uk

Advice on getting a loan, grant or insurance.

www.ucas.ac.uk/students/studentfinance

UCAS site on student finance.

www.suttontrust.com

Charity promoting social mobility through improved access to education.

www.thecompleteuniversityguide.co.uk

For a summary of how bursaries and grants work.

courses-careers.com

Check out the bursary searcher.

www.studentvalue.co.uk

Price comparison site for students.
